Case Study

# Personal Auto Coverage - Angie T.

## What Happened?

In late fall, Angie's son was using her vehicle to attend an event. When he returned home, he parked on the street.

Due to the dry leaves of the season, the heat from the engine ignited them. Within minutes, the entire vehicle was engulfed in flames (pictured below). Fortunately, no one was injured.

## Outcome

Angie called her Gilbert's service team, and swift action was taken to handle her claim properly.

Our team managed the claim until it was fully resolved, resulting in a complete payout. This allowed Angie and her family to purchase a new vehicle.

## Results

**100%** **of damages were covered**

Gilbert's and the carrier were able to cover 100% of the cost of damages.

**$20K** **paid out to cover the claim**

Gilbert's and the carrier were able pay over $20,000 to cover the cost of the claim.

**$3.28** **For every dollar spent, $3.28 was returned**

Angie T. was able to receive $3.28 on every dollar she spent on her auto policy. This means her auto policy prevented her from any loss.
